IMMUNOLOGY

CONTENTS

Vol. 59 No. 1 September 1986

Review paper

J. T. GOLAY: Functional B-lymphocyte surface antigens 1

M. R. GREENWOOD & R. M. E. PARKHOUSE: Monoclonal antibody NIM-R3 substitutes for B-cell growth factor 7

K. J. KIM & S. Q. DEJOY: Con A induction of IgG secretion from a B-lymphoid tumour cell line, A20 15

J. J. T. OWEN, R. KINGSTON & E. J. JENKINSON: Generation of cells expressing cytoplasmic and/or surface T-cell receptor β chains during the development of mouse fetal thymus 23

S. J. ECCLES, H.-S. TEH, A. G. DIAMOND & W. R. MCMASTER: Differential expression of RT1 class II genes in fibroblast cell lines: recognition by allogeneic and xenogeneic T lymphocytes 29

C. R. M. BANGHAM: Passively acquired antibodies to respiratory syncytial virus impair the secondary cytotoxic T-cell response in the neonatal mouse 37

T. KOIZUMI, Y. NAKAO, T. MATSUI, Y. KATAKAMI, T. NAKAGAWA & T. FUJITA: Synergistic induction by calcium ionophore and phorbol ester of interleukin-2 (IL-2) receptor expression, IL-2 production, and proliferation in autoimmune MRL/MP-lpr mice 43

R. BUJDOSO & A. J. MUNRO: The response of T cells to soluble protein antigens and fixed antigen-presenting cells 51

B. J. MILLS, J. E. SHIVELY, P. S. MITSKY, D. H. HAWKE, S. J. FORMAN, C. L. WRIGHT & C. W. TODD: Synergy between interleukin-2 and a second factor in the long-term growth of human T cells 57

W. R. A. OSBORNE & R. W. BARTON: A rat model of purine nucleoside phosphorylase deficiency 63

A. S. KEMP & M. W. TURNER: The role of opsonins in vacuolar sealing and the ingestion of zymosan by human neutrophils 69

N. YOUSAF, J. C. HOWARD & B. D. WILLIAMS: Studies in the rat of antibody-coated and *N*-ethylmaleimide-treated erythrocyte clearance by the spleen. I. Effects of *in vivo* complement activation 75

N. YOUSAF, J. C. HOWARD & B. D. WILLIAMS: Studies in the rat of antibody-coated and *N*-ethylmaleimide-treated erythrocyte clearance by the spleen. II. Effects of immune complex infusion 81

R. MOQBEL, A. J. MACDONALD & A. B. KAY: Enhanced granulocyte cytotoxicity by mediators derived from anti-IgE-stimulated human leucocytes 87

A. H. ESA, S. J. NOGA, A. D. DONNENBERG & A. D. HESS: Immunological heterogeneity of human monocyte subsets prepared by counterflow centrifugation elutriation 95

C. CAMPOS-PERERA, R. A. MURGITA, S. P. HAUPTMAN & K.-O. GRONVIK: Identification of macromolecular insoluble cold globulin (MICG) as a new marker shared by NK and ADCC cells, but not expressed by NC cells 101

A. D. WILSON, C. R. STOKES & F. J. BOURNE: Morphology and functional characteristics of isolated porcine intraepithelial lymphocytes 109

D. C. PONSARD, B. CINADER, C.-T. CHOU & S. DUBISKI: Characterization of rabbit cells by monoclonal and polyclonal antibodies 115

N. W. MILLER, A. DEUTER & L. W. CLEM: Phylogeny of lymphocyte heterogeneity: the cellular requirements for the mixed leucocyte reaction with channel catfish 123

C. O. JACOB & J. P. VAERMAN: Induction of rat secretory IgA antibodies against cholera toxin by a synthetic peptide 129

U. W. MUELLER, C. S. HAWES & W. R. JONES: Cell surface antigens of human trophoblast: definition of an apparently unique system with a monoclonal antibody 135

J. BORN & S. BHAKDI: Does complement kill *E. coli* by producing transmural pores? 139

H. KITAMURA, M. TSUBOI & K. NAGAKI: C3-independent immune haemolysis: mechanism of membrane attack complex formation 147

J. BIEWENGA, A. FABER, J. C. PRONK & J. J. HAAIJMAN: Production and characterization of pepsin fragments of human IgA1 to determine domain-specificity of monoclonal anti-IgA antibodies 153

Brief communication

B. LOVELAND, R. HUNT & M. MALKOVSKÝ: Autologous lymphoid cells exposed to recombinant interleukin-2 *in vitro* in the absence of antigen can induce the rejection of long-term tolerated skin allografts 159

Book review 163

Erratum 165

Vol. 59 No. 2 October 1986

D. B. YOUNG & J. R. LAMB: T lymphocytes respond to solid-phase antigen: a novel approach to the molecular analysis of cellular immunity 167

D. C. WRAITH & A. E. VESSEY: Influenza virus-specific cytotoxic T-cell recognition: stimulation of nucleoprotein-specific clones with intact antigen 173

T. T. MACDONALD, C. E. CALKINS & A. L. ROTHERMEL: Modulation *in vivo* of Lyt 2 antigen expression on T

cells by anti-Lyt 2 antibody : effects on Con A-induced unresponsiveness 181
R. Cameron & J. D. Waterfield: Delineation of two defects responsible for T-cell hyporesponsiveness to concanavalin A in MRL congenic mice 187
H.-G. Thiele, F. Koch, A. Hamann & R. Arndt: Biochemical characterization of the T-cell alloantigen RT-6.2 195
A. D. Higham, R. A. Sells & S. Marshall-Clarke: Cyclosporin A has differential effects on the responses of murine B cells to TI antigens and B-cell mitogens 203
T. Nitta, H. Konno-Ejiri, K. Nemoto, S. Okumura, A. Ozawa & M. Nakano: The roles of interleukins in the synergistic effect of B-cell mitogens with concanavalin A on hydrocortisone-resistant thymic cell proliferation 209
R. Pabst, M. Miyasaka & L. Dudler: Numbers and phenotype of lymphocytes emigrating from sheep bone marrow after *in situ* labelling with fluorescein isothiocyanate 217
M. M. Carr, E. McVittie, K. Guy, D. J. Gawkrodger & J. A. A. Hunter: MHC class II antigen expression in normal human epidermis 223
S. Mukherjee, D. R. Katz & G. A. W. Rook: Differing role of dendritic cells and macrophages in the induction of delayed-type hypersensitivity responses to PPD 229
K. Kimura, M. Nakanishi, M. Ueda, J. Ueno, H. Nariuchi, S. Furukawa & T. Yasuda: The effect of immunoglobulin G1 structure on macrophage binding to supported planar lipid monolayers 235
J. R. Geffner, G. Serebrinsky & M. A. Isturiz: Normal human serum restores the expression of Fcγ receptors in immune complex-blocked human mononuclear cells 239
J. H. Passwell, R. Shor, E. Gazit & J. Shoham: The effects of Con A-induced lymphokines from the T-lymphocyte subpopulations on human monocyte leishmaniacial capacity and H_2O_2 production 245
S. Hinuma, K. Naruo, O. Shiho & K. Tsukamoto: Characteristics of murine non-specific killer cells induced *in vivo* by recombinant human interleukin-2 251
M. V. Borca, F. M. Fernández, A. M. Sadir, M. Braun & A. A. Schudel: Immune response to foot-and-mouth disease virus in a murine experimental model: effective thymus-independent primary and secondary reaction 261
M. Belosevic & G. M. Faubert: Killing of *Giardia muris* trophozoites *in vitro* by spleen, mesenteric lymph node and peritoneal cells from susceptible and resistant mice 269
J. B. Solomon: Natural cytotoxicity for *Plasmodium berghei in vitro* by spleen cells from susceptible and resistant rats 277
A. S. S. Orago & J. B. Solomon: Antibody-dependent and -independent cytotoxic activity of spleen cells for *Plasmodium berghei* from susceptible and resistant rats 283
L. Choromanski & R. E. Kuhn: Repeated antigenic stimulation overcomes immunosuppression in experimental Chagas' disease 289
M. G. Bruce & A. Ferguson: The influence of intestinal processing on the immunogenicity and molecular size of absorbed, circulating ovalbumin in mice 295
N. Lycke & J. Holmgren: Strong adjuvant properties of cholera toxin on gut mucosal immune responses to orally presented antigens 301
R. Bose, E. S. Rector, J. Fischer, R. Taronno & G. Delespesse: Production and characterization of mouse monoclonal antibodies to allergenic epitopes on *Lolp*I (Rye I) 309
S. Maudsley, C. R. K. Hind, E. A. Munn, N. Buttress & M. B. Pepys: Isolation and characterization of guinea-pig serum amyloid P component 317

Brief communication

L. Bersani, F. Colotta & A. Mantovani: Involvement of tumour necrosis factor in monocyte-mediated rapid killing of actinomycin D-pretreated WEHI 164 sarcoma cells. 323

Book reviews 327

Vol. 59 No. 3 November 1986

J. Ivanyi & K. Sharp: Control by H-2 genes of murine antibody responses to protein antigens of *Mycobacterium tuberculosis* 329
G. A. W. Rook, J. Steele, M. Ainsworth & B. R. Champion: Activation of macrophages to inhibit proliferation of *Mycobacterium tuberculosis*: comparison of the effects of recombinant gamma-interferon on human monocytes and murine peritoneal macrophages 333
S. J. Brett & R. Butler: Resistance to *Mycobacterium lepraemurium* is correlated with the capacity to generate macrophage activating factor(s) in response to mycobacterial antigens *in vitro* 339
M. Jondal, J. Ng, M. Patarroyo & P.-A. Broliden: Phorbol ester regulation of Ca^{2+} flux during natural, lectin and antibody-dependent killing 347
G. J. Ligthart, P. C. van Vlokhoven, H. R. E. Schuit & W. Hijmans: The expanded null cell compartment in ageing: increase in the number of natural killer cells and changes in T-cell and NK-cell subsets in human blood 353
H. Schrezenmeier, R. Kurrle & B. Fleischer: Stimulus-dependent triggering or inhibition of cytotoxicity in human cytotoxic T lymphocytes by activators of protein kinase C 359
N. Sakato, T. Azuma & H. Fujio: Fine specificity analysis of idiotype-specific suppressor factors that block a delayed-type hypersensitivity response to M315: evidence supporting a role for somatic mutations in the variable region of the lambda 2 chain of M315 365
N. Shinomiya, S. Tsuru, M. Taniguchi, H. Fujisawa, M. Ikeda, Y. Zinnaka & K. Nomoto: Immune protective mechanisms during pregnancy. I. Cell-mediated immunity against *Listeria monocytogenes* in pregnant mice 373
A. Scheynius, R. Holmdahl & L. Klareskog: Effects on murine T helper cell proliferation by DTH activated syngeneic epidermal cells 379
A. W. Boylston & S. J. May: Human T lymphocytes expressing a defined T-cell antigen receptor family specifically kill the hybridoma that makes the anti-receptor monoclonal antibody 383
S. B. Dillon & T. T. MacDonald: Functional characterization of Con A- responsive Lyt 2-positive mouse small intestinal intraepithelial lymphocytes 389

F. L. VAN DER HEIJDEN: Mucosal lymphocytes in the rat small intestine: phenotypical characterization *in situ* 397

A. JURETIĆ: Influence of the combination of intraperitoneal and footpad immunization on anti-H-Y immunological reactivity 401

D. H. CRAWFORD & I. ANDO: EB virus induction is associated with B-cell maturation 405

P. MÖLLER, B. LÄMMLER, B. HERRMANN, H. F. OTTO, G. MOLDENHAUER & F. MOMBURG: The primary mediastinal clear cell lymphoma of B-cell type has variable defects in MHC antigen expression 411

E. G. SMET, W. DE SMET, L. BRYS & P. C. DE BAETSELIER: Mab.198: a monoclonal antibody recognizing the complement type 3 receptor (CR3) in the rabbit 419

S. M. MACDONALD, K. PULFORD, B. FALINI, K. MICKLEM & D. Y. MASON: A monoclonal antibody recognizing the p150/95 leucocyte differentiation antigen 427

J. HOPKINS, B. M. DUTIA & I. MCCONNELL: Monoclonal antibodies to sheep lymphocytes. I. Identification of MHC class II molecules on lymphoid tissue and changes in the level of class II expression on lymph-borne cells following antigen stimulation *in vivo* 433

W. J. W. MORROW, J. HOMSY, C. A. SWANSON, Y. OHASHI, J. ESTES & J. A. LEVY: Dietary fat influences the expression of autoimmune disease in MRL/*lpr*/*lpr* mice 439

P. R. HUTCHINGS, A. M. VAREY & A. COOKE: Immunological defects in SJL mice 445

A. K. SINGH & M. M. SCHWARTZ: Circulatory antigen of Heymann nephritis. II. Isolation of a 70,000 MW antigen from normal rat serum which cross-reacts with Heymann nephritis antigen 451

G. T. LAYTON, D. R. STANWORTH & H. E. AMOS: Factors influencing the immunogenicity of the haptenic drug chlorhexidine in mice. II. The role of the carrier and adjuvants in the induction of IgE and IgG anti-hapten responses 459

M. R. WALKER, A. SOLOMON, N. R. LING, B. BROWN, J. A. LOWE, D. HARDIE & R. JEFFERIS: Immunogenic and antigenic epitopes of immunoglobulins. XVIII. Subpopulations of human lambda chains defined with a panel of monoclonal antibodies 467

R. A. MAGEED, M. R. WALKER & R. JEFFERIS: Restricted light chain subgroup expression on rheumatoid factor paraproteins determined by monoclonal antibodies 473

Vol. 59 No. 4 December 1986

J. D. NUNN, D. R. KATZ, S. BARKER, L. J. FRAHER, M. HEWISON, G. N. HENDY & J. L. H. O'RIORDAN: Regulation of human tonsillar T-cell proliferation by the active metabolite of vitamin D_3 479

J. PRYJMA, H.-D. FLAD, M. ERNST, E. BRANDT & A. J. ULMER: Immunoglobulin production of human lymphocytes stimulated by *Staphylococcus aureus* Cowan I and pokeweed mitogen: differential effects of recombinant interleukin-2 485

M. D. KENDALL: Elemental concentrations within types 2 and 3 epithelial cells of the rat thymus 491

D. K. HARRISON, V. A. SPENCE, J. SWANSON BECK, J. G. LOWE & W. F. WALKER: pH changes in the dermis during the course of the tuberculin skin test 497

M. BRAIDA & J. KNOP: Effect of cyclosporin A on the T-effector and T-suppressor cell response in contact sensitivity 503

S. E. MACATONIA, A. J. EDWARDS & S. C. KNIGHT: Dendritic cells and the initiation of contact sensitivity to fluorescein isothiocyanate 509

M. NANDOSKAR, A. FERRANTE, E. J. BATES, N. HURST & J. C. PATON: Inhibition of human monocyte respiratory burst, degranulation, phospholipid methylation and bactericidal activity by pneumolysin 515

B. T. ZIMMERMAN, B. P. CANONO & P. A. CAMPBELL: Silica decreases phagocytosis and bactericidal activity of both macrophages and neutrophils *in vitro* 521

G. PERI, V. ROSSI, G. TARABOLETTI, A. ERROI & A. MANTOVANI: Ia antigen expression and IL-1 activity in murine tumour-associated macrophages 527

M. E. SCHEETZ, D. G. CARLSON, J. L. BOBBITT, L. D. BUTLER & S. H. ZUCKERMAN: Characterization and specificity of a high titre polyclonal goat anti-murine IL-1 antibody 535

J. SCHEFFER, K. VOSBECK & W. KÖNIG: Induction of inflammatory mediators from human polymorphonuclear granulocytes and rat mast cells by haemolysin-positive and -negative *E. coli* strains with different adhesins 541

S. AHLSTEDT, G. BIRGEGÅRD, I. HAMMARSTRÖM, M.-B. INTO-MALMBERG, M. JONTELL, J. DENBURG & E. ÅKERBLOM: Stimulation of maturation of large immature histamine-containing basophilic cells from human peripheral blood, cord blood and bone marrow 549

W. AWARA, K. HILLIER & D. JONES: Kinetics of prostaglandin E_2 and thromboxane A_2 synthesis and suppression of PHA-stimulated peripheral blood mononuclear leucocytes 557

T. C. HUNT & A. F. ROWLEY: Leukotriene B_4 induces enhanced migration of fish leucocytes *in vitro* 563

M. SARFATI, T. NUTMAN, C. FONTEYN & G. DELESPESSE: Presence of antigenic determinants common to Fc IgE receptors on human macrophages, T and B lymphocytes and IgE-binding factors 569

E. P. HALL & E. A. GAULT: Suppression of IgE responses by hyperimmune serum in rats 577

M. W. J. BÖHME, D. A. EVANS, M. A. MILES & E. J. HOLBOROW: Occurrence of autoantibodies to intermediate filament proteins in human visceral leishmaniasis and their induction by experimental polyclonal B-cell activation 583

A. TARKOWSKI, K. GUNNARSSON & T. STÅLHANDSKE: Effects of LS-2616 administration upon the autoimmune disease of (NZB × NZW) F_1 hybrid mice 589

S. A. ELLIS, I. L. SARGENT, C. W. G. REDMAN & A. J. MCMICHAEL: Evidence for a novel HLA antigen found on human extravillous trophoblast and a choriocarcinoma cell line 595

K. GUY, P. G. MIDDLETON, L. J. M. DOCHERTY, C. L. DE ANGELIS & C. M. STEEL: MHC class II antigen and immunoglobulin expression in spontaneous phenotypic variants of the Burkitt's lymphoma cell line Namalwa 603

F. J. M. Nooij, W. van Vreeswijk & J. Coolen: Polymorphism for RhT3, a CD3-like cell surface antigen, expressed on rhesus monkey T lymphocytes 611

D. J. Bevan & P. M. Chisholm: Co-expression of CD4 and CD8 molecules and *de novo* expression of MHC class II antigens on activated rat T cells 621

Brief communications

P. C. Creemers, M. O'Shaughnessy & W. J. Boyko: Increased interleukin-2 receptor expression after mitogen stimulation on CD4- and CD8-positive lymphocytes and decreased interleukin-2 production in HTLV-III antibody-positive symptomatic individuals 627

J. F. Maddox, C. R. Mackay & M. R. Brandon: Four antigens expressed on most ovine cell types 631

N. M. Almond & R. M. E. Parkhouse: The Ig class distribution of anti-phosphoryl choline responses in mice infected with parasitic nematodes 633
